

# Black Stang

## Eugene McGuinness

Hotwire the mustang and it's gung-ho  
Hi-yo silver, follow Tonto  
We'll take it to the end of the night  
Strut tall in the red morning light  
Shoot a zip wire up onto my window  
And I'll fire my body way down below  
You turn it, turn it upside down  
You burn the heavens to the groundGo gotta go  
Rip the road up  
Black Stang Black StangTime to shake your inhibition  
Time to rattle to the rhythm  
Sway slow, then grind a little faster  
On top or below, you're the master  
Hold my jaw between your knee-caps  
School me in all the things you need now  
Smile sweet, I know what this is not  
A leopard won't ever change it's spotsGo gotta go  
Rip the road up  
Bleck Stang Black Stang  
Grab your clothes  
Now you've woke up  
Transform your walk of shame  
into a victory parade
