

Somebody Loved Me

Reel Big Fish

All of my friends, they're not my friends
A knife in the back, felt it again
What did I do? Was it so wrong?
Used to fit in, now I don't belong I think somebody loved me once
I think somebody loved me once
I think somebody loved me once
But I cannot remember why My confidence is stuck in my throat
When you lay blame, I'm your scapegoat
Ears burnin' red, I heard what you said
You smile at my face but you wish I was dead I think somebody loved me once
I think somebody loved me once
I think somebody loved me once
But I cannot remember why I think somebody loved me once
I think somebody loved me once
I think somebody loved me once
But I cannot remember I think somebody loved me once
I think somebody loved me once
I think somebody loved me once
But I cannot remember why, why
