

Borrow Mine

Bebo Norman

Take my hand and walk with me a while
'Cause it seems your smile has left you
And don't give in, when you fall apart
And your broken heart has failed you I'll set a light up on a hilltop
To show you my love for this world to see You can borrow mine when your hope is gone
Borrow mine when you can't go on
'Cause the world will not defeat you when we're side by side
When your faith is hard to find, you can borrow mine, borrow mine And take my love when all that you can see
Is the raging sea all around us
And don't give up 'cause I'm not letting go
And the God we know will not fail us We'll lay it all down as we call out
"Sweet Savior help our unbelief" You can borrow mine when your hope is gone
Borrow mine when you can't go on
'Cause the world will not defeat you when we're side by side
When your faith is hard to find, you can borrow mine When you are weak, unable to speak
Well you are not alone
The God who has saved us will never forsake us
He's coming to take us, take us to our home You can borrow mine when your hope is gone
Borrow mine when you can't go on
'Cause the world will not defeat you when we're side by side
When your faith is hard to find, when your faith is hard to find
You can borrow mine, you can borrow mine Take my hand, take my love
And don't give in, no, and don't give up
