New Way Out

Mark Tremonti

Tired of losing, losing faith
Seems that it's harder
Hard to fight through each day
Save us from breaking, breaking down
But how?
Can we restore how it was?
Or is it gone?
Gone...Here today and gone tomorrow
Hope that there's just some other way out
Fighting too long to be the last to know
Hope that there's just some other way...
OhChasing the memories of our past
These are the moments that we hold
But they fail to last
Decided I'm leaving, leaving now
But how?
Can we find nowhere to go?
And are we lost?
LostHere today and gone tomorrow
Hope that there's just some other way out
Fighting too long to be the last to know
I hope that there's just some other way...
A way out, yeahStill we must carry on
'Cause we've come so far,
Yeah, we've won before
And let's try not to waste
Waste one moment, let's try today
Whoa
Take back what we've lostHere today and gone tomorrow
Hope that there's just some other way out
Fighting too long to be the last to know
I hope that there's just some other way out(Go find your way out now)
Hope that there's just some other way out
(Go find your way out now)
Hope that there's just some other way...
