She's Got to Be

Amy Ray

She's got to be with me always
to make sense of the skin I'm in
Sometimes it gets dangerous, yeah
and lonely to defend
Marking time with every change
it's hard to love this woman in meShe is the one that stills the sea
finds the truth of this anarchy
Dives the depths of every age
keeps this body and knows the shapeI will love and I will protect this love
it was hard to get
And I will love and I will protect this love
and its anarchySociety what part of me
is swagger born?
What part is demeaned?
Mama when I turn to age
is this body just a cage?She's got to be with me always
to make sense of the skin I'm in
Sometimes it gets dangerous, yeah
and lonely to defendI will love and I will protect this love
it was hard to get
I will love and I will protect this love
and its anarchy
