

# Jam for the Ladies (feat. Angie Stone & MC Lyte)

## Moby

One thing's for sure, well we got soul It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are Get yer jam, get it on, superstar  
Get yer jam, get it on, superstar  
Get yer jam, get it on, superstar  
Get yer jam, get it on, superstar Jam on  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
MC Lyte, would you put it right Everybody moves, I paid my dues  
You pick and choose, I stick and move  
Yes, yes y'all, it ain't gonna stop  
Forget me not, ladies keep rippin' the spot Now men what you heard 'cause women are comin' up  
Keepin' it raw sexy and rough  
Fly from the top to the bottom it's gonna be  
Cut 'em, gut 'em, we got 'em it's like the old leagues It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
If you're from where-ever to where-ever you are  
MC Lyte, do it right You know I, I can't stand to be held back, it's so fly  
All the ladies y'all got my back, yeah  
Even when we're solo in action  
We come together like six sets of Jacksons For the ladies and a superstar  
Lyte leave the set but never go too far  
I toured the world but I'm rollin' it now  
Don't want my girl to brag, eve was holdin' it down Jam for the ladies, we putting it down

Snatchin' the crown 'cause we fend for high ground  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
I could leave the whole set but never go too far  
It's a jam for the ladies and the superstars  
And they know, superstar
