

# Little Girl

**NJ Taylor**

You feel like life let you down  
Like you've been defeated  
Like the world blocks you out  
When you most need it What if you could choose your destiny?  
Life is what you make of it  
What if you could change your destiny?  
Life is what you make of it Little girl, please don't cry  
Oh it's just a moment in time  
Little girl, don't be sad  
Soon will be your time to shine I see you hurt inside  
Everything's so dark  
You've had enough of life  
So cry on me but don't give up the fight What if you could choose your destiny?  
Life is what you make of it  
What if you could change your destiny?  
Life is what you make of it Little girl, please don't cry  
Oh it's just a moment in time  
Little girl, don't be sad  
Soon will be your time to shine Bridge  
And I know they all do you wrong  
But you gotta be strong  
And if you lose sight of it all  
You will be losing so much more What if you could choose your destiny?  
Life is what you make of it  
What if you could change your destiny?  
Life is what you make of it Little girl, please don't cry  
Oh it's just a moment in time  
Little girl, don't be sad  
Soon will be your time to shine What if you could choose your destiny? [little girl, please don't cry]  
Life is what you make of it [it's just a moment in time]  
What if you could change your destiny? [little girl, don't be sad]  
Life is what you make of it [soon will be your time to shine]
