## Gimme a Chance

## **Plain White T's**

Why don't you open up your eyes?

These are more than passing glances

Why don't you say what's on your mind?

'Cause I'm taking all the chancesIf I'm not everything you wanted, ohh

If I'm not everything you needThen you can walk right out the door

(You can walk right out the door)

And you can walk right out on me

(You can walk right out on me)But you're never gonna see

Just how good it's gonna be

Until you gimme a chance

Gimme a chance, ohhWhat do you see in all these guys?

Don't you know they're just pretending?

Somehow you always seem surprised

That it's not a happy ending, don't you want a happy ending? If I'm not everything you wanted, ohh
If I'm not everything you needThen you can walk right out the door

(You can walk right out the door)

And you can walk right out on me

(You can walk right out on me)But you're never gonna see

Just how good it's gonna be

Until you gimme a chance

Gimme a chance, ohhYeah, you can walk right out the door

(You can walk right out the door)

And you just say goodbye to me

(You just say goodbye to me)But I know you're going to stay

And be happy everyday

If you just gimme a chance

Gimme a chance, ohhAll I want to do is spend my life with you

And all I want from you is a chance

So I can prove my love to you

Just gimme a chance, gimme a chanceIf I'm not everything you wanted, ohh

If I'm not everything you needThen you can walk right out the door

(You can walk right out the door)

And you can walk right out on me

(You can walk right out on me)But you're never gonna see

Just how good it's gonna be

Until you gimme a chance

Gimme a chance, ohhYeah, you can walk right out the door

(You can walk right out the door)

And you just say goodbye to me

(You just say goodbye to me)But I know you're going to stay
And be happy everyday
If you just gimme a chance
Gimme a chance, ohhWhy don't you open up your eyes?
Just gimme a chance, gimme a chance, ohh
Why don't you say what's on your mind?
Just gimme a chance, gimme a chance, ohh
