Wrap My Body Tight

Johnny Gill

I fell out of bed this mornin'
Oh something was bugging me
I couldn't sleep cuz I hadn't had any lovin'
So I've got to solve this problem now baby
And darlin' I know what the remedy should be

At night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight
As the day goes by thoughts weigh heavy on my mind
Only thing I think about is tonight the lights go out
And I hope it's you tonight
But not just tonight
Ev'ry day and ev'ry night I want your love
Hold me sweet sweet love

So I'm telling you my problem because
I know you'll know exactly what I need

At night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight
As the day goes by thoughts weigh heavy on my mind
Only thing I think about is tonight the lights go out
And I hope it's you tonight
But not just tonight
Ev'ry day and ev'ry night I want your love
Hold me sweet sweet love

Girl I have to solve this problem
And I know what the remedy should be
I need someone to hold me
I need a woman
Right here next to me

At night when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm

I need a woman to wrap my body tight
As the day goes by thoughts weigh heavy on my mind
Only thing I think about is tonight the lights go out
And I hope it's you tonight
But not just tonight
Ev'ry day and ev'ry night I want your love
Hold me sweet sweet love
