

A Capella

Chase Goehring

I'm out to be the best me that I can be
working on my craft day in and out
you know that's what I'm about
no, I'm not aiming to become famous

I just wanna play and sing this the only competition I see is myself
I got a tunnel vision kinda like a telescope

and I'm looking at
and I'm picking at

everything that I can do to become better I see a lot of people I hear a lot of things they're talking about diamond rings, money things

I guess that happens when you hit the top become unsatisfied with everything
that you already got you say it's all about the music but mess around with girls who do it yeah
you lied to your fans

I'm singing from my shadow you can call that shademy verse is straight and my flow is hard

I paint my songs like a work of art
I never grew up listening to other stuff
you could say I'm kind of different
maybe just a bluff but let me tell you I am 100 percent reality authentic
I ain't dancing around in a fantasy, no

only sea that I'll be dancing in is a sea of fans in a sold out MSG maybe a year or two, maybe a year or three
it doesn't phase me, honestly
even if I don't make it by then

I'll still be doing shows so I'll make it in the end yeah and if you think I'm irrelevant well then I must be relevant
cause you took the time to listen to my song
that I wrote on my bed in my bedroom I don't sing for a backtrack

I write songs in my snapback
I don't care what they say

I'm keeping it real kinda like an A Capella I don't hook up with strangers
I've got class and respect

I don't care what they say keeping it real kinda like an A Capella A Capella A-A Capella A Capella A-A Capella
A Capella A-A Capella

keeping it real kinda like an A Capella sometimes I need to focus on myself and what I need sometime I feel like
my mind is on its own kind of speed but I guess that's the way it goes when you try to write like a beast
this is my feast don't ever classify me as a rapper

I spit a little bit and
I can talk fast but that's it I ain't about the gold chains
ain't about the fake girls
ain't about the high life
ain't about the money see my lyrics are different

they come alive the minute I start to sing them

I would say that I put my soul all up in them

but I am a ginger you know how that goes my world comes together the moment my pen hits the paper like I'm a
jail breaker but

I have committed no crime

to be charged for, you see me in bars

but don't know what I stand for I don't sing for a backtrack

I write songs in my snapback

I don't care what they say I'm keeping it real kinda like an A Capella I don't hook up with strangers

I've got class and respect

I don't care what they say keeping it real kinda like an A Capella A Capella A-A Capella A Capella A-A Capella
A Capella A-A Capella

keeping it real kinda like an A Capella Wait
my fingers bleed when I pluck strings

I was never raised to play this guitar with a pick thing at times people say I sound British when I say things
when I say things

say things now they coming to me

asking if I wanna be the next big thing

I'm the next best thing buddy

you better get your facts straight

I don't need a record label to show them my talent great cause if the people like it then the people buy it
why would I wanna hire another writer just to take it higher

foolish like the gold that you place in my hands

cause that's fool's gold

and I'm not fooled by this fame game

this Twitter game

it's so lame

cause I'm verified on the inside

don't need a blue check to be satisfied

ah pluck strings when I play this take names when I play this take notes when I play this
break strings when I play this take names when I play this take notes when I play this
break strings when I play this take names when I play this take notes when I play this
break strings when I play this take names when I play this take notes when I play this
you already know I don't sing for a backtrack

I write songs in my snapback

and I don't care what they say I'm keeping it real kinda like an A Capella I don't hook up with strangers

I've got class and respect

and I don't care what they say

and I don't care what they say

cause I'm keeping it real

keeping it real kinda like an A Capella
