

# Into the Woods

## My Morning Jacket

A kitten on fire, a baby in a blender  
Both sound as sweet as a night of surrender  
I know it ain't easy but you do what you can  
If your livin' gets wheezy, you can follow this plan  
Put in more than you could ever get out  
I'm tired of the talking, I know what you're about  
Now open your mouth, here comes the spoon  
You're gonna eat what I give ya and you're gonna like it real good  
I went over the river and into the woods,  
where did I go?  
Where a wood burning stream, flows up through the trees  
Like the soul of the hottest kind of lover, I've ever seen  
One who lives to choose another fool's dream  
A good shower head and my right hand  
The two best lovers that I ever had  
Now if you find you agree with what I just said  
You'd better find a new love and let 'em into your head  
I went over the river and into the woods, where did I go?  
Where a wood burning stream, flows up through the trees  
Like the soul of the hottest kind of lover, I've ever seen  
One who lives to choose another fool's dream
