Killer wake in the evening
Killer walk outside
When she comes divided
She nearly comes aliveShe only cares when her libido is buzzing
Bees only thrive when the honey is there
She knows the way to the script write doctor
She calls him up when the itch gets bad, the itch gets badA model makes you famous
A dying goat's a lamb
A processed pig is white trash meat
Some people call it SpamShe only cares when her libido is buzzing
Bees only thrive when the honey is there
She knows the way to the script write doctor
She calls him up when the itch gets bad, the itch gets badA drinker, he's a boozer
A junkie, she ain't shit
Some may get famous
But most of them just get itShe only cares when her libido is buzzing
Bees only thrive when the honey is there
She knows the way to the script write doctor
She calls him up when the itch gets bad, the itch gets bad
The itch gets bad, the itch gets bad
