

Another World

[Joe Jackson](#)

I was so low
People almost made me give up trying
Always said no
Then I turned around saw someone smiling I stepped into, I stepped into
Into another, into another
I stepped into, I stepped into
Into another, into another world There was no light
I was going to all the wrong places
Like day from night
Suddenly I saw a thousand faces I stepped into, I stepped into
Into another, into another
I stepped into, I stepped into
Into another, into another world Stepped into, I stepped into
Into another, into another
I stepped into, I stepped into
Into another, into another I stepped into, I stepped into
Into another, into another
I stepped into, I stepped into
Into another, into another world
