

Hang On

CHAPPO

As days go by
Will you change your mind? Waiting, whispering in the sky
Hoping time doesn't pass me by You make me hang on and I will
You make me hang on As I remain
Will she know my name? Waiting, whispering in the sky
Hoping time doesn't pass me by
You make me hang on and I will
You make me hang on
You make me hang on and I will
You make me hang on
You make me hang on and I will
You make me hang on
You make me hang on and I will
You make me hang on I'm sad but I've got to go
You matter most of all
But I'd rather not have to go
And this chapter is very slow
(Hang on, hang on)
You make me hang on and I will
You make me hang on
You make me hang on and I will
You make me hang on
You make me hang on and I will
You make me hang on
You make me hang on and I will
You make me hang on
