Portrait

Etro Anime

Blue portrait with green lips a look of serenity
The sorrow in your eyes captured
Moving forward a steady clip a search for tranquility
Security's your right bliss on your listYou found me before I found myself
You loved me before I loved myself
You gave yourself completely
And I can't give inYour light spins the music repeatedly
The portrait stares at me as the world bends
From your all encompassing heart that heart of purity
It's so humbling to be your friendYou found me before I found myself
You loved me before I loved myself
You gave yourself completely
And I can't give inTu m'as trouv avant que je me trouve
Tu m'aimes avant que je m'aime
Tu as laisse ton coeur ouvert
Et je ne peux pas succomber
Je ne peux pas succomber
