

# Stay (A Little Longer)

**Abbott Hayes**

It looks like we've worn this down  
Trampled and tattered and tossed around  
It looks like we've dragged this out  
as far as the eye can see now  
It seems like I've sold my soul  
For a sure shot at love or so I was told  
Remorse for the days that came  
Days that I can't regainI'll stay a little longer if it takes more time  
To work on all the problems that you've had in mind  
So lift those shoes that drag so slow  
Or save me the trouble if you're just gonna go  
And find yourself a place in another time  
Where things feel so much different  
And I hope you're right  
As for myself, I just don't know  
I'll fade into the background, I'm laying lowOh oh, hey hey, we've gotta find ourselves someway  
Oh oh, hey hey, we've gotta find ourselves someway  
Oh oh, hey hey, we've gotta keep ourselves someway
