Windmills

Toad the Wet Sprocket

Advisory - the following lyrics contain explicit language:

I spend too much time raiding windmills
We go side by side laughing until its rightTheres something that you wont show
Waiting where the light goes
Take the darkest hour break it open
Water to repair what we have brokenTheres something that you wont show
Waiting where the light goes
Maybe anywhere the wind blows
Its all worth waiting forPull on the borders to lighten the load
Tell all the passengers were going homeI spend too much time seeking shelter
World without end couldnt hold herTheres something that you wont show
Waiting where the light goes
And anyway the wind blows
Its all worth waiting for
Anyway the wind blows
