Duv Mafia

Boo

Take your favourite words, put a tune to it
Confront yourself, get immune to it
Take your favorite (click), put a move to it
Find yourself, then groove on it

Speak the words in any order, naturally they'll occur, in that said order
Nice music you making baby
Nice music you making

We see stars a shoot, you and me
When I look at your foot, I can see
That it's not on the ground and it's not in a shoe
It's doing what my foot would like to do too!

Speak the words in any order, naturally they'll occur, in that said order
Nice music you making baby
Nice music you making

I give you a million, I give you myself
In exchange for it, I want your help
To make this tune, to make it appeal
To make it about the way we feel

Speak the words in any order, naturally they'll occur, in that said order
Nice music you making baby
Nice music you making

That's monkey business, let's get to the point
The point is... there is no point!
We care not for whom, what or whether
We care what we tune, we tune in together

Speak the word, and it's in order, naturally i'll occur, in your said corner
Nice music you making baby
Nice music you making
