

# Duv Mafia

## Boo

Take your favourite words, put a tune to it  
Confront yourself, get immune to it  
Take your favorite (click), put a move to it  
Find yourself, then groove on it

Speak the words in any order, naturally they'll occur, in that said order  
Nice music you making baby  
Nice music you making

We see stars a shoot, you and me  
When I look at your foot, I can see  
That it's not on the ground and it's not in a shoe  
It's doing what my foot would like to do too!

Speak the words in any order, naturally they'll occur, in that said order  
Nice music you making baby  
Nice music you making

I give you a million, I give you myself  
In exchange for it, I want your help  
To make this tune, to make it appeal  
To make it about the way we feel

Speak the words in any order, naturally they'll occur, in that said order  
Nice music you making baby  
Nice music you making

That's monkey business, let's get to the point  
The point is... there is no point!  
We care not for whom, what or whether  
We care what we tune, we tune in together

Speak the word, and it's in order, naturally i'll occur, in your said corner  
Nice music you making baby  
Nice music you making

---
