# Pleasures

## Pleasure P

Open your menu up, give it back to me
And maybe tell me everything you want
I'm gonna serve you up so perfectly
You gonna wish you had some at home
I'm gonna make you smile and make you
Feel like your every wish is my command
I know you had a lot of service baby
But now the pleasure's in my handSo baby girl what ever it is you're asking me
It's a pleasure to please you
And whenever you sing you liked me
It's a pleasure to please you
Girl I don't care 'bout service whatever you need
There's only one bed that you need
Girl the pleasure's all mine you'll see
It's a pleasure to please youI said I gotta take your [?] on
And when I'm fooling in the love again
And put one to one and lover on
I doubt I feel it than lovin on
And so break you down and make you
And never wanna touch your bottom end
You put you got a lot of love baby
You put you on being with a kind of man
There's something my love your way
And I love your smile
And want you, you want to f**k in my bone
And I want your way
And then I'll put you on the forth
F**k some more and when alone
And show the beak's all grown
And back's are real smart
For fallin' in love a day
It was a kiddin in love baby
Then what you said
That f****d you so hardSo baby girl what ever it is you're asking me
It's a pleasure to please you
And whenever you sing you liked me
It's a pleasure to please you
Girl I don't care 'bout service whatever you need
There's only one bed that you need

Girl the pleasure's all mine you'll see
It's a pleasure to please you
