(Sex...Sex...Sex...)Let me guess what's on your mind
That's all right 'cause it's all mine
You better get me what I want
'Cause that's what I've been waiting forSeen upon the silver screen
Even on the cover of magazines
You can watch it on TV
But just don't let your children see
(Sex...Sex...Sex...Sex...)What's wrong with you and me?
There's more to it than biology
I'm gonna really try
To keep you satisfied
(Sex...Sex...Sex...Sex...)Another one from making love (sex)
That's where we all came from
(Yeah) that's where this world began
So let's all do it while we can
(Sex...Sex...Sex...Sex...)
