

Hearing Voices Tonight

[Kisschasy](#)

The voices taunt me and take me all the way down
They took my body and beat it to the ground And I will wash my skin for days on end
But this is stuck, this is stuck
And I have done worse things than this before
So shut me off, shut me off tonight, tonight, tonight The chemical change in me turns everything blue
The microphone shakes as I spit words at you But I will scrub my skin for days on end
But this is stuck, this is stuck
And I have done worse things than this before
So shut me off, shut me off tonight, tonight
