

Go Find a Man

Christopher

You threw my favorite t-shirt out
Who the hell do you think you are
Always change the music when we're driving in my car
You don't like my friends, you say they're immature
But you don't like anything 'cause you're so insecure
And I'm not sure, what you're looking for
Go find a man that you can change
And let me go because you don't want me no
You never never did
Go find a man who will obey every word you say
You don't want me no, you never never did
You never never did, ohh
You never never did, ohuhoh
You never never did
You don't like the way I laugh
Say I always talk too much
And you hate the way I dance, but don't really give a fuck
You can't take it, you can leave it, you can't break it or believe it
I'm so over you
Telling me what to do
Go find a man that you can change
And let me go because you don't want me no
You never never did
Go find a man who will obey with every word you say
You don't want me no, you never never did
Oh, oh
You never never did
Ohuhoh
You never never did
You never ever will
You never ever understood
You won't get it until
Until you have lost me for good
Go find a man that you can change
And let me go because you don't want me no
You never never did
Go find a man who will obey every word you say
You don't want me no, you never never did
Oh, oh
You never never did
Oh uhh oh
You never never did
Go find a man that you can change
I'm never gonna be the one you want babe
Go find a man that will obey
I'm never gonna be the man that you need

Go find a man that you can change
I'm never gonna be the one you want babe
Go find a man that will obey
I'm never gonna be the man that you need
Ohh
