

It Would Be You

Johnny Gill

Listen.

Pinch me if I'm dreaming
As a matter of fact, I take that back
Let me lay there inside of your love
Listening to your heartbeat
Girl ain't no feeling better than feeling on your body
Girl don't you know I miss ? ya I just wanna touch ya
If you ever took your love away
I can truly say I'd die right here today
Don't give me the world I just want my girl
If I could have anything, I'd put it on everything
That it would be you you you you
I just want you you you

You are my love and my love for you girl
Is all that I need if I had nothing more
Than our love, I'd be just fine with our love
Your shoes can't be filled they cannot wear your heel
The truth is in you girl there's nothing else real than our love
I'll be just fine with our love
Woman if you took your love away
Then I could truly say I'd die right here today
Don't give me the world I just want my girl

[Chorus: x2]

If I could have anything, I'd put it on everything
That it would be you you you you
I just want you you you

Now what would I do, where would I be?
If there was no you, there'd be no me
Now think about that girl
Oh oh yeah
What would I do where would I be
If there was no you there would be no me
Now think about that girl think think think

[Chorus: x2]
