You Call Me Up

Puggy

You call me up
Telling me to get what you got
I don't want to hear what you've made up
I'd rather meet you when you're on topSo I should know a little 'bout you
What you do
I should know a little 'bout youYou tied me up
Left me here and never came back
You don't even call
Or get back in touch
And nothing beats the hell out of thatNow I should hear a little from you
What you do
I should hear a little from you
