Darkness (Faded Mix)

Phutureprimitive

You won't mind
I'm taking over
Look into my eyes
and just let go

Now tell me why
You're higher
You're conscience lies
when darkness falls

Won't you please me once
I'm higher
Now tell me why
and just let go

Feed my mind
like a fire
I'll bring new light
when darkness falls

Won't you feel me now
and touch my soul
Till you free my mind
and the tears they flow

Now tell me why
you're higher
Your conscience lies
when darkness falls
