

# Make Me Feel Alright

Karen Silver

I was alone  
Hoping that someone would come to me,  
And when you were looking at me  
It was destiny

You crossed my path and walked in my way,  
I turned my head finding nothing to say  
You may be wrong, My fears were strong  
I held my breath hoping you'd hear my song

If you want me, Why don't you make me  
Feel alright (Alright!)  
Oh, If you need me, Then never leave me,  
Leave me uptight (Leave me uptight)

Oh, If you want me, Then will you love me,  
Love me tonight  
Just wake me and make me feel it,  
It's out of sight (It's out of sight)

I called to you  
Knowing that it was foolish of me  
You came and called,  
Looked in my eyes and set my harmony

I took your hand and wanted to nod  
You looked at me and I knew it inside  
You turned me on, My fear was gone  
I heard you playing as I'm singing my song

If you want me, Why don't you make me  
Feel alright (Alright!)  
Oh, If you need me, Then never leave me,  
Leave me uptight (Uptight!)

Oh, If you want me, Then will you love me,  
Love me tonight  
Just wake me and make me feel it,  
It's out of sight (It's out of sight)

(Dance all night, Dance all night, Oh yeah)  
(Dance all night, Dance all night, Oh yeah)  
(Dance all night, Dance all night, Oh yeah)  
(Dance all night, Dance all night, Oh yeah)

If you want me, Why don't you make me  
Feel alright  
Oh, If you need me, Then never leave me,  
Leave me uptight

Oh, If you want me, Then will you love me,  
Love me tonight  
Just wake me and make me feel it,  
It's out of sight (It's out of sight)

I was alone  
Hoping that someone would come to me,  
And when you were looking at me  
It was destiny

You crossed my path and walked in my way,  
I turned my head finding nothing to say  
You may be wrong, My fears were strong  
I held my breath hoping you'd hear my song

If you want me, Why don't you make me  
Feel alright (Alright!)  
Oh, If you need me, Then never leave me,  
Leave me uptight (Uptight!)

Oh, If you want me, Then will you love me,  
Love me tonight  
Just wake me and make me feel it,  
It's out of sight (It's out of sight)

(Let me feel it, Let me feel it...Oh, Yeah)  
(Let me feel it, Let me feel it...Oh, Yeah)  
(Let me feel it, Let me feel it...Oh, Yeah)  
(Let me feel it, Let me feel it)

If you want me, Why don't you make me  
Feel alright  
Oh, If you need me, Then never leave me,  
Leave me uptight

Oh, If you want me, Then will you love me,

Love me tonight  
Just wake me and make me feel it,  
It's out of sight (It's out of sight)

If you want me, Why don't you make me  
Feel alright (Alright!)
