

No Kiss

Oak is Keeping

They say that animal's need their space
inside we're cannibals
the human race
cut off our nose to spite our face

Let's split some hairs
let's see what we're about
the lion's share
a pound of flesh an eye for an eye

It won't be soon before too long
you find your shell hallow and drawn
Climb the mountains what do you see
looking on its vacancies
mystified by what you've found
life on earth has let you down

Pull up a chair
force feed your appetite
reach down your throat
the time is right

It's fight or flight
we struggle tooth and nail
sew up the bites
call out the wolves
cause we're all lambs

It won't be soon before too long
you find your shell hallow and drawn
Climb the mountains what do you see
looking on its vacancies
mystified by what you've found
life on earth has let you down
