Never Around

Korn

Hate is all around
If you see what I see
Definitely something's going on
These fingers
Pointed at me
The lying
The cheating
The hellish nights alone
While I am weeping
Just searching
Love is never around
All the waiting
Betraying
The one thing I hold sacred in my life is
Left hanging
And I'm never around
Let go
And I will truly be free
Just let go
Your mind really is the disease
So just go
Enjoy everything I received
So let go
And I will kill this unease
Let's turn this around
I'll look down on me
Now I see what's going on
Worrying about you all and not me
The prying
The cheating
The hellish nights alone
While I am weeping

Just Searching
Love is never around
All the waiting
Betraying
The one thing I hold sacred in my life is
Left hanging

And I'm never around
Let go
And I will truly be free
Just let go
My mind is really the disease
So just go
Enjoy everything I received
So let go
And I will kill this unease
[Laughter]Hate is all around
If you see what I see
Definitely something's going on
These fingers
Pointed at me
Pointed at me
These fingers
Pointed at me
Let go
And I will truly be free
Just let go
Your mind is really the disease
So just go
Enjoy everything I received
So let go
And I will kill this unease
