

Bloom (Harmonic 313 Rmx)

Radiohead

Open your mouth wide
A universal sigh
And while the ocean blooms
It's what keeps me alive
So why does this still hurt?
Don't blow your mind with why I'm moving out of orbit
(Turning in somersaults)
Turning in somersaults
(A giant turtle's eyes)
A giant turtle's eyes
(And jellyfish float by)
And jellyfish float by (It's what keeps me alive)
