

# Youth (Disco Fries Radio Remix)

## Foxes

They didn't warn me  
When I was running wild  
The dragons breathing fire  
In the backyard at night We live in circles  
And it's so hard to breathe  
Maybe the same old fears  
What have we here?  
Don't bring me down  
With you Now I'm just chasing time  
With a thousand dreams I'm holding heavy  
And as we cross the line these fading beats have all been severed  
Don't tell me our youth is running out  
It's only just begun If I asked you for good news  
Would you smile and turn away?  
It's like a bad dream  
That is too afraid to wake There are many among us  
And we're changing all the time  
Maybe the same old fears  
What have we here?  
Don't bring me down  
With you Now I'm just chasing time  
With a thousand dreams I'm holding heavy  
And as we cross the line these fading beats have all been severed  
Don't tell me our youth is running out  
It's only just begun These fading beats  
These fading beats Now I'm just chasing time  
With a thousand dreams I'm holding heavy  
And as we cross the line these fading beats have all been severed  
Don't tell me our youth is running out  
It's only just begun These fading beats  
A thousand dreams  
These fading beats  
A thousand dreams  
It's only just begun
