We All Love the Same Songs

Lake Street Dive

We love all the same songs
We sing along in the car
This drive wont feel too long
with the radio on in the carKeepin away
Keepin awake ohThe feeling that everything is standing still when we're back at home
Dreading the sound of just one voice aloneWe love all the same songs
we sing along in the car
Wake before the sun
Another dawnin the car
Who'll miss us when we're gone
rolling along
in the carKeeping awake
keeping astray of
the feeling that everything has gone so wrong
but we're not aloneï¬•lling the space of what we can't let go
My life won't feel too long
with the radio on in the car
We've followed every sign and line upon our map
and now we're far from where we started
and we're not so broken heartedla la la
