Almost

Rebekah Garvin

I had you then I lost
you just like that
You were mine then you were gone
just like that
And my heart broke like shattered glass
it happened so fast.

I almost had you
I almost held you
But you never got to see the sun
Two almost became three
We were almost a family
And you were supposed to be the one
I wanted it to be you
I wanted it to be you so, so bad
And now Iâ€™ll never go a day
without thinking bout what we almost had

You were given and taken
just like that
Now Iâ€™ll never be the same again
just like that
When your heartbeat stopped so soon
Felt like mine did too

I almost had you
I almost held you
But you never got to see the sun.
Two almost became three
We were almost a family
And you were supposed to be the one
I wanted it to be you
I wanted it to be you so, so bad
And now Iâ€™ll never go a day
without thinking bout what we almost had

I saw your future in my mind
So beautiful and bright
I wondered what youâ€™d be like

Cracking jokes or a little shy
I wanted to be in the front row
At every game and show
I wanted to watch you grow
But now Iâ€™ll never know

Oh oh

I almost had you
I almost held you
But you never got to see the sun
Two almost became three
We were almost a family
And you were supposed to be the one
I wanted it to be you
God knows I wanted you so, so bad
And now Iâ€™ll never go a day
without thinking bout what we almost had

Fly baby fly baby fly
Fly Angel fly Angel fly
Spread your wings and fly
