Changes

Thornley

So I've tried out all the pick me up's
And I've sipped red whine from a Dixie cup
And I can't change, I can't change
And I need to see thing's I've seen in pictures
Instead of hangin' around the house
Like a mess in the kitchen
I can't change, I can't change
The list of things, I've never done
Just keeps getting longer
I'm tired of trying to put it off until tomorrow
This can't stay the same
Somewhere, there's gotta be something waiting for me
Out there, there's gotta be something more to show me
The list of thing's I've never done
Just keeps getting longer, this has got to change
I'm in the corner of the room like a pile of dust
I've got a voice in my head, screaming
This is enough but I can't change, I can't change
Watching TV is like a kick in the nuts
You've gotta be a brain surgeon or an astronaut
But I can't change, I can't change
The list of things, I've never done
Just keeps getting longer
I'm tired of trying to put it off until tomorrow
This has got to change
Somewhere, there's gotta be something waiting for me
Out there, there's gotta be something more to show me
The list of thing's I've never done
Just keeps getting longer, this has got to change
Some things can't stay the same
(Somethings got to change)
Some things can't stay the same
(Somethings got to change)
Some things can't stay the same
(Somethings got to change)
Some things can't stay the same
(Somethings got to change)
Some things can't stay the same
(Somethings got to change)

Some things can't stay the same
(Somethings got to change)
Some things can't stay the same
(Somethings got to change)
Some things can't stay the same
(Somethings got to change)
And I've tried out all the pick me up's
And I've sipped red whine from a Dixie cup
And I can't change, I can't change
This has got to change
Somewhere, there's gotta be something waiting for me
Out there, there's gotta be something more to show me
The list of thing's I've never done
Just keeps getting longer, this has got to change
Some things can't stay the same
(Stay the same)
Some things can't stay the same
(Stay the same)
Some things can't stay the same
(Stay the same)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
(Something's gotta change)
Some things can't stay the same
