

# Changes

## Thornley

So I've tried out all the pick me up's  
And I've sipped red wine from a Dixie cup  
    And I can't change, I can't change  
And I need to see thing's I've seen in pictures  
    Instead of hangin' around the house  
        Like a mess in the kitchen  
        I can't change, I can't change  
        The list of things, I've never done  
        Just keeps getting longer  
I'm tired of trying to put it off until tomorrow  
    This can't stay the same  
Somewhere, there's gotta be something waiting for me  
Out there, there's gotta be something more to show me  
    The list of thing's I've never done  
Just keeps getting longer, this has got to change  
I'm in the corner of the room like a pile of dust  
    I've got a voice in my head, screaming  
This is enough but I can't change, I can't change  
    Watching TV is like a kick in the nuts  
You've gotta be a brain surgeon or an astronaut  
    But I can't change, I can't change  
    The list of things, I've never done  
        Just keeps getting longer  
I'm tired of trying to put it off until tomorrow  
    This has got to change  
Somewhere, there's gotta be something waiting for me  
Out there, there's gotta be something more to show me  
    The list of thing's I've never done  
Just keeps getting longer, this has got to change  
    Some things can't stay the same  
        (Somethings got to change)  
    Some things can't stay the same  
        (Somethings got to change)  
    Some things can't stay the same  
        (Somethings got to change)  
    Some things can't stay the same  
        (Somethings got to change)  
    Some things can't stay the same  
        (Somethings got to change)  
Some things can't stay the same  
    (Somethings got to change)
