

# Gravity (Lenzman Remix)

## Shapeshifter

At first light I think we both knew  
Just what we were getting into  
Now it feels just like I'm falling  
When will I hit the ground  
Will I be running, for you Every time I feel my heart beat  
That's when I know you're around  
Could you be what I've been after  
Or more precise, my disaster As I run I am free  
No longer fight gravity  
All triumph and tragedy  
Please run run away with me As I run I am free  
No longer fight gravity  
All triumph and tragedy  
Please run run away with me Not a thing that they could do  
That's gonna slow me down  
Now that I've found my way  
And I am moving As I run I am free  
No longer fight gravity  
All triumph and tragedy  
Please run run away with me As I run I am free  
No longer fight gravity  
All triumph and tragedy  
Please run run away with me Barely touched the ground  
Head up in the clouds  
Ain't gon' take me down  
Now that I've found this I bound this  
Now that we've found this we bound this
