

Good God's:// Urge

Porno for Pyros

Good Gods don't take away my father
Give him back his legs
Don't take away his heart
Don't take away, his sun, his mind, his family
Good Gods don't take away my father
Give him back his legs
If you can't help him
Then you can take me, his son, his mind, his heart
I'm his family
I'm his family
Got shark mark on my skin
Make it where I can see him full of health and hungry
I want a shark mark on my skin
Make him fast, hake him swim, he was raped and died lonely
Urge
Give me urge
Give me urge
His eyes say kill to look at
Trust no man he mean as sin
Shame won't make you desperate
Feels like it's eternity always leaning and desperate
Give me urge
Just give me urge
Give me urge
