

Swim

Madonna

Put your head on my shoulder baby
Things can't get any worse
Night is getting colder sometimes
Life feels like it's a curse
I can't carry these sins on my back
Don't want to carry any more
I'm gonna carry this train off the track
I'm gonna swim to the ocean floor
Crash to the other shore
Swim to the ocean floor
Children killing children while the
Students rape their teachers
Comets fly across the sky
While the churches burn their preachers
We can't carry these sins on our back
Don't want to carry anymore
We're gonna carry this train off the track
We're gonna swim to the ocean floor
Crash to the other shore
Swim to the ocean floor
Let the water wash over you
Wash all over you
Swim to the ocean floor
So that we can begin again
Wash away all our sins
Crash to the other shore
I can't carry these sins on my back
Don't want to carry any more
I'm gonna carry this train off the track
I'm gonna swim to the ocean floor
Crash to the other shore
Swim to the ocean floor
We can't carry these sins on our back
Don't want to carry anymore
We're gonna carry this train off the track
We're gonna swim to the ocean floor
Crash to the other shore
Swim to the ocean floor
