

Most Messed Up

Old 97's

stop squeezin' my shoes quit killin' my buzz
why you wreckin' my mood what are you the fuzz
I'm so far gone I can't never get found
I am the most messed up motherfucker in this town
I know it's not fair I had a head start
there's only so many words you can rhyme with heart
well I used 'em all up yeah I wrote 'em all down
I am the most messed up motherfucker in this town yeah I need a little need a little need a little need a little
sympathy
yeah I need a little need a little need a little need a little sympathy I'll prove it all night to the porcelain god
and the dark-eyed girl with the name I forgot
but when I wake up there ain't nobody around
I am the most messed up motherfucker in this town yeah I need a little need a little need a little need a little
sympathy
yeah I need a little need a little need a little need a little sympathy
yeah I need a little need a little need a little need a little sympathy
