All Or Nothing

Dappy

All or nothing, all or nothing.
Show me a hand out, a domino, way to make it doubled up,
Under on, this ain?t enough, in case of beginners luck,
Lost spy so I knew I had to have another goal,
Now I?m on fire but I ain?t gonna stop.
Drop and roll, roll the dice, with me you?re going to leave tonight.
Today?s another lucky day and I ain?t even blast ?em
Our winter streets never felt so strong if I run
You can let it all on me, let?s call in.
All in and throw the whole lot in the lines,
Days could have been higher,
And only a liar would say they?re happy with the second place.
Let?s call in, call in,
Let?s spin the wheel and roll the dice,
Baby, ?cause we?re on fire, and if you?re sensing tears
Then you can let all fall on me.
?Cause I want it all,
Nothing in this world it?s impossible,
See, I never had anything and now I just want it all.
And something deep inside makes me want more,
See, I would do anything just to have everything.
All or nothing,
See, I never had anything, now I want it all.
All or nothing,
See, I would do anything just to have everything.
I?m feeling something in me,
?Cause me and lady Luck we?ve got so much history.
Alakazam, imma turn pennies to fifty,
I?ll make shit spin like flying a freesby.
If you?re with me you should let me know,

?cause you?ll be sorry if you let me go,
If you don?t try, you?ll never know,
Up in the streets, never felt so strong,
If I?m wrong you can blame it all on me.
All in and throw the whole lot in the lines,
Days could have been higher,
And only a liar would say they?re happy with the second place.
Let?s call in, call in,

Let?s spin the wheel and roll the dice,
Baby, ?cause we?re on fire, and if you?re sensing tears
Then you can let all fall on me.
?Cause I want it all,
Nothing in this world it?s impossible,
See, I never had anything and now I just want it all.
And something deep inside makes me want more,
See, I would do anything just to have everything.
All or nothing,
See, I never had anything, now I want it all.
All or nothing,
See, I would do anything just to have everything.
Look into my eyes and you will see the sun
?Cause too much just ain?t enough.
So we?ll turn to gold, ?cause we are on our own.
I?m preparing, preparing, preparing to own it all,
I want it all, nothing in this world?s impossible,
See, I never had anything, so now I just want it all.
I want it all, and something deep inside makes me want more,
See, I would do anything just to have everything.
All or nothing,
See, I never had anything, now I just want it all.
All or nothing,
See, I would do anything just to have everything.
