One Last Time (Darlin' II)

Between The Trees

All that I know is you change something in me
I envy the power you have
My hearts stirring so just kiss meOne last time before you go
If I let you leave promise you'll return to me darlingKeep my distance you say while holding my hand
I love it when you're this close to me
Because you speak so intently as you say come kiss meOne last time before you go
If I let you leave promise you'll return to me
One last time before you go
If I let you leave promise you'll return to me, yeah darling
