

# One Last Time (Darlin' II)

## Between The Trees

All that I know is you change something in me  
I envy the power you have  
My hearts stirring so just kiss me One last time before you go  
If I let you leave promise you'll return to me darling Keep my distance you say while holding my hand  
I love it when you're this close to me  
Because you speak so intently as you say come kiss me One last time before you go  
If I let you leave promise you'll return to me  
One last time before you go  
If I let you leave promise you'll return to me, yeah darling
