## James Vincent McMorrow

(Verse 1:)
How was the cold
Along the path I determined to hold
Although it coiled round a perilous wing
Blinded with hot gas and carving off steam
There was still smokeBurnt in the grass
Reclaim a portion of desolate south
Add in the stirrings and long lost fatigue
Barrels that hide us in hair fallen heed
Then became sound(Chorus:)
And I wasn't afforded a love
Covered up in hard earned clay
I wasn't accorded a stop
Always in it so much more
I wasn't afforded a love
Covered up in hard earned clay
And time wasn't the only cavernous(Verse 2:)
I hope my contour charts show up via river
Out to the only ocean
There's something peaceful that goes out via river
Out to the ocean
I was peaceful standing, I was open(Chorus:)
And I wasn't afforded a love
Covered up in hard earned clay
I wasn't accorded a stop
Always in it so much more
I wasn't afforded a love
Covered up in hard earned clayTime wasn't the only cavernous
Time wasn't the only cavernous
Time wasn't the only cavernous
Time wasn't the only coward
