So Far Away

Charli XCX

Give me the poison
I love the poison
Hooked on the poison

I canâ€™t believe all those things that you said
You broke my heart and you fucked with my head again
So I run (so long ago and so far away)
I canâ€™t believe all those things that you said
You are the poison, Iâ€™ll drink the poison

Get out my head, get out my bed
I donâ€™t believe those, the words that you said
Pocket of lies, crystal blue eyes
Hit the ground hard when Iâ€™m dropped from the skies
Youâ€™re coming up when Iâ€™m going down
Never in sync so we just sink and drown
Press restart and reboot my heart
But Iâ€™m not a robot so I fell apart
Before the moment that we met we were chatting on the Internet
Getting kinda close through the posts that we were looking at
I was pretty confident, you were pretty into that
I linked you to my music just to see if youâ€™d be into it
So fuck the prologue, read the Internet blogs
"Gonna love this star and it came from the clubs."
I wasnâ€™t looking for a fuck, I was looking for a bad boy
Bad boy, motherfucker, destroy

I canâ€™t believe all those things that you said
You broke my heart and you fucked with my head again
So I run (so long ago and so far away)

I canâ€™t believe all those things that you said
You broke my heart and you fucked with my head again
So I run (so long ago and so far away)

I canâ€™t believe all those things that you said
You are the poison, Iâ€™ll drink the poison
I want the poison, I need the poison
Give me the poison
I love the poison

Hooked on the poison

(So far away
So long ago and so far away
So far away
So long ago and so far away)

Now I know for sure that weâ€™ve got to end this
You donâ€™t get no last kiss
â€˜Cause youâ€™re so damn crazy
And Iâ€™m so damn helpless
So donâ€™t text my number
And donâ€™t call my mother
I canâ€™t see your face now
â€˜Cause this is over

I canâ€™t believe all those things that you said
You broke my heart and you fucked with my head again
So I run (so long ago and so far away)
I canâ€™t believe all those things that you said
You are the poison, Iâ€™ll drink the poison
(So long ago and so far away)
