

Keep Askin' (Acoustic Version)

Citizen Cope

Keep askin'
How long will my love it last
AlwaysKeep askin'
How long will my days they pass
AlwaysKeep asking me my love
Keep asking help from aboveThere comes a time
And a place when
You kind of mind living
Day to day when
Country to country
And state to state where
They all got their leaders
Who all push their weight
Another Mother lost
Another child today
Bet tommorow that will
Be yesterday's
Bet you double that
Some people enraged
On the corner
With their voices
Raising judgement day
