

# Where You At

Amanda Perez

Uhh where you at huh? Where you at huh?  
Uhh where you at huh? Where you at huh? Since the age of eleven  
Stayed in my room twenty-four seven  
Yeah I stayed in da lab with a pen and a pad  
'Cause music was all I had So God gifted my music God be gifting  
Yeah they be trippin' on all the music that I be mixin'  
It can be Hip Hop or R and B yeah I can rap the mic you see  
Got any questions go head and give me a ring I can make a beat for you in ten minutes or less  
I'm the best and I'll have you stress go ahead and give me a test  
'Cause it's right here I guarantee that I can prove it  
I don't need no one to make my music 'cause I write it produce it And to those who had money but wouldn't  
bring me up  
Now you stuck so can you tell me what, what, what tell me what Now what, where you at?  
Now what, where you at?  
Now what, where you at?  
I'm right in the front you way too back Now what, where you at?  
Now what, where you at?  
Now what, where you at?  
Huh huh where you at? Now what, where you at?  
Now what, where you at?  
Now what, where you at?  
I'm right in the front you way too back Now what, where you at?  
Now what, where you at?  
Now what, where you at?  
Huh huh where you at? Now what, where you at?  
Now what, where you at?  
Now what, where you at?  
I'm right in the front you way too back Now what, where you at?  
Now what, where you at?  
Now what, where you at?  
Huh huh where you at? See everything I do is with my blood, sweat and tears  
Give you what I feel make you love what you hear  
There ain't one in this world would ever bring me down  
Five years from now still be in town breaking it down Nothing but grand material bump this shit in your stereo  
Got you wanting sterical 'cause my shit so lyrical  
To all the men who said they put my foot in the door  
Just took my music now it's me that they ignore Tell that everyone in the game, they didn't know what wasn't so  
They told me I was worth much, much more  
They said I deserve my big chance so I signed that contract

Now I'm set ten years in advance  
To those who didn't give a fuck I wish you luck  
Now can you please tell me what, what, what tell me what  
Now what, where you at?

Now what, where you at?

Now what, where you at?

I'm right in the front you way too back  
Now what, where you at?

Now what, where you at?

Now what, where you at?

Huh huh where you at?  
Now what, where you at?

Now what, where you at?

Now what, where you at?

I'm right in the front you way too back  
Now what, where you at?

Now what, where you at?

Now what, where you at?

Huh huh where you at?
