

So Do I

Kenny Ball

You like music that swings, so do I
You like flowers in the spring, so do I
And you like to run around with your feet off the ground
And to feel life is real -- so do I
You like Jazz more than Liszt, so do I
And you like to be kissed -- so do I
So it must be plain to see that you've gotta marry me
And as you say "I do" so do I
