

# Small Talk

## The Ponys

And when I take the stand call your witness  
I'll tell you who I am, another mockery  
Will tell your people I figure I just don't know  
What you bottle up inside and that's my story to tell You'll never know  
You'll never know  
You'll never know what I've found Talk about it on Saturday  
Hear the words and hear them till they go away  
And all these dreams you've had  
Will tell me something I figure I you just don't know  
What you bottled up inside that's what it means to me You'll never know  
You'll never know  
You'll never know what I've found And when I take the stand call your witness  
I'll tell you who I am, another mockery  
Will tell your people I figure I just don't know  
What you bottle up inside and that's my story to tell You'll never know  
You'll never know  
You'll never know what I've found
