

# That's What I'm Here For (feat. David Grow)

**Jim Brickman**

Dry your eyes I'm here now  
We'll get through this somehow  
Sometimes this world cuts like a knife  
Baby, baby that's life.  
Please believe I understand  
Put yourself into my hands  
All of your heartaches  
All of your fears  
I'll make them disappear

## CHORUS

That's what I'm here for baby  
That's what a love can do  
You won't shed a tear for  
The rest of your life  
I'll make it clear  
That's what I'm here for  
When this world is wearin' thin  
I feel your breath upon my skin  
When my days are harder than stone  
I know I'm not alone

## CHORUS repeat
