

# Wish Resign (Linden House Demo)

## Circa Survive

alter and teach the ages  
nothing you love lasts too long  
a marvelous calm  
abandoned in the stages of  
birth mother vs. the mid wife  
who'll tell the children about her lifethat's why you never mentioned my name to them  
denying us all of the momentthat's why you never mentioned my name to them  
denying us all of the momentwhat brought you back to this place  
I knew you'd never learn  
I knew you'd neveranything expected of you now  
I knew you'd never learn  
I knew you'd neverI'd place my bet down now  
you'll be the first one to sell me outthat's why you never mentioned my name to them  
denying us all of the momentthat's why you never mentioned my name to them  
denying us all of the momentwhat brought you back to this place  
I knew you'd never learn  
I knew you'd neverwhat brought you back to this place  
I knew you'd never learn  
it's obviouswhat brought you back to this place  
what brought you back to this place
